Neuro-Linguistic Programming (NLP) Training

Introduction to NLP

During this two day course you will be introduced to a powerful set of skills and techniques that will enable you to become more effective in all aspects of your life. Whether you choose to use these new capabilities in your professional or personal life this course will put you on the path to making the changes that you want.

COURSE OUTLINE

The course is experiential and following presentations and demonstrations participants will have the opportunity to practice the techniques and skills learnt in a safe environment. Comprehensive notes covering the two days will be provided in a course folder, and upon completion students may progress to a NLP Practitioner course.

The course will focus on helping you plan the changes you want, enabling you to set more effective goals, build better rapport skills, change patterns of thought and behaviour, and produce more of the results that you want in your life.
